WMF 1400 CLASSIC

WELCOME WORLD OF COFFEE

Choc
Chococcino

Milkfoam
Milk

A coffee machine is perfect then if it can do exactly what you need. No professional would voluntarily invest unnecessary money in an oversized device. But you should also not skimp at the wrong end with household devices and risk a bad investment. The WMF 1400 Classic is perfectly designed for the average need and is not inferior to its big sisters in terms of quality and comfort. The WMF 1400 Classic demonstrated the fact that it also looks good at one of the world's largest design competitions. It was awarded the "red dot design award" at the competition.

The WMF 1400 Classic is available with the following milk and steam systems:

The information on the milk system, as well as the drinks that can be prepared with it, can be found on page 68.

Easy maintenance

Basic maintenance work can be carried out yourself making it rare for the WMF Service Engineer to see your machine.

Plug+Clean

All milk-carrying parts are easily cleaned with the patented Plug+Clean.

Delicious Milk Choc and Chociatto

With plenty of fresh milk nearly any creation can be made from milk, coffee and chocolate.

Clear design

Elegant by day and a shining example of attractive design ideas by night.

WMF 1400 CLASSIC

WELCOME WORLD OF COFFEE

Perfectly matched accessories make your work easier and your WMF 1400 Classic even more powerful. Here, for example, the WMF 1400 Classic was provided with a Cup&Cool.

Additional accessories for the WMF 1400 Classic can be found on the back of the fold.

WMF 1400 Classic technical data

| | |
|--|--------------------|
| Recommended daily output / max. hourly output* | up to 150 cups |
| Power supply | 2.2 kW / 230 V |
| Hourly output in accordance with DIN 18873-2* | |
| Espresso / 2 Espresso | 120 / 188 cups |
| Café Crème / 2 Café Crème | 93 / 110 cups |
| Cappuccino / 2 Cappuccino | 120 / 158 cups |
| Cappuccino / 2 Cappuccino Topping | 82 cups |
| Total hot water output per hour* | 120 cups |
| Energy loss per day in accordance with DIN 18873-2, Topping / Basic Milk | 0.72 / 1.29 kWh |
| 1 or 2 coffee bean hoppers | approx. 500 g |
| Chocolate, topping hopper | approx. 500 g |
| Twin chocolate or twin topping hopper | approx. 500 g |
| Dimensions (width / height** / depth) | 325 / 676 / 557 mm |
| Water tank (tankmodel) | approx. 4 l |
| Empty weight, depending on fittings | approx. 30 - 40 kg |
| Continuous sound pressure level (LpA)*** | < 70 dB (A) |

* Recommended daily output / max. hourly output. The hourly output depends on the cup size, quality settings, spout, features and power supply. The basis for the recommended maximum daily output is the respective stored service concept. Let our trained WMF staff assemble the coffee machine solution that meets your needs.

** Height with bean hopper.

*** The A-rated sound pressure level LpA (slow) and LpA (impulse) at the workplace of the staff using the machine is less than 70 dB (A) in every mode.

From 5° dKH (carbonate hardness), a WMF water filter is recommended.
